EXPERIENCE

Consignment Letter

2022 - 2023

- I used to fill out the form needed for the trucks in this business, Part-Time Job, I was simply in charge of registering every field needed.

PROJECTS

League of Legends Web Page (Inspired)

- This was made basically to improve my skills in html, css and js. In General I think the looks of the page are quite good, and it functions in the way it is meant to be. It is responsive and has it respective categorie buttons.

Ecommerce Web Page

- This web page was one that I made with React, i used tailwind in order for it. This was mainly for a college project, It has 4 different screens, including home screen, product screen, about us screen, and the shopping cart screen. I implemented a discount code for it to calculate the price.

To-do List

- This is a basic and simple to-do list, you can add tasks, remove them and even edit them, theres not too much about it.
